VEERA MADDULA

Waterford, Ireland | +353 894338657 | jagannadham.ireland.edu@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

DevOps and Site Reliability Engineer with 4+ years of experience supporting large-scale digital and e-commerce production systems on AWS. Proven track record in end-to-end monitoring and observability using Grafana, Prometheus, Pingdom, and Stack driver, ensuring platform reliability and rapid anomaly detection. Skilled in infrastructure automation, application containerization (Docker, ECS, EKS), and CI/CD pipeline management to enable faster, more reliable releases. Experienced in leading bridge calls during major incidents, driving root cause analysis, and resolving complex production issues under pressure. Strong background in change management, cross-functional collaboration, and maintaining SLOs in 24×7 on-call environments. AWS Certified Solutions Architect and M.Sc. Computing candidate based in Ireland.

TECHNICAL SKILLS

Cloud: AWS (EC2, ECS, EKS, S3, RDS, Route 53, IAM, ASG, CloudFormation, CloudFront), Azure & GCP (basic)
Containers & IaaC: Docker, Kubernetes (EKS/GKE), ECS, Terraform, Ansible, CloudFormation
CI/CD & Scripting: Jenkins, GitHub Actions, Git/GitHub, Maven, Python, Bash
Monitoring: Prometheus, Splunk, Grafana, CloudWatch, AppDynamics, ELK Stack, Zenoss
Systems & SRE: Linux (Ubuntu, CentOS, RHEL), TCP/IP, DNS, VPC, incident management, SLO maintenance, runbooks

EXPERIENCE

SRE & Cloud Support | NetEnrich Technologies (Client: Disney Interactive) *Jan 2020 – Sep 2023*

Supported large, AWS-based production systems by helping with application deployments, monitoring, and fixing issues that affected important services. Made systems more reliable and faster to release by automating tasks with Ansible and Terraform, improving CI/CD pipelines, and setting up better monitoring with CloudWatch, ELK, Grafana, and AppDynamics

- Supported four large-scale Disney e-commerce platforms across EU, US, Japan, and APAC regions on AWS, ensuring high availability and performance for globally distributed infrastructure.
- Performed pre-scale capacity checks ahead of major events (Black Friday, holiday sales), validating Auto Scaling, load balancers, and CDN caching to handle traffic surges.
- Managed deployments and troubleshooting across microservices (payment, catalogue, cart, web) coordinating multi-region releases with minimal downtime.
- Built monitoring and observability using CloudWatch, Splunk, Grafana, ELK, and AppDynamics — designed dashboards, alerts, and health checks to maintain platform SLOs.
- Deployed and managed containerized workloads via ECS and EKS (Docker); automated infrastructure provisioning with Terraform and Ansible, reducing configuration drift.
- Led incident troubleshooting in on-call rotations, performing root cause analysis and collaborating cross-functionally. Reduced average incident resolution time by ~25%.

Technical Operations Engineer | TechWing, Rajahmundry *Oct 2023 – Jun 2024*

- Managed AWS cloud infrastructure and Linux servers for EdTech platforms, supporting CI/CD deployments across dev, staging, and production environments.
- Performed Linux administration including user management, system configuration, patching, log analysis, and security hardening.
- Implemented monitoring and alerting with CloudWatch, Grafana, and ELK, enabling faster incident detection and reduced mean time to resolution.
- Developed runbooks and operational documentation for incident response, deployments, and system maintenance procedures.
- Designed cloud operational workflows including access management, ticket handling, and escalation procedures to streamline operations.
- Collaborated with engineering and product teams to implement DevOps best practices and improve overall infrastructure reliability

CERTIFICATIONS

AWS Certified Cloud Practitioner — Amazon Web Services, 2024
AWS Certified Solutions Architect — Amazon Web Services, 2024
RedHat Certified System Admin

EDUCATION

Master's in Computing Information System processes (NFQ Level 9) Sep 2024 to Oct 2025
South East Technological university, Waterford, Ireland
Bachelor of Technology in Electrical and Electronics Engineering (NFQ Level 8 Equivalent) May 2018 to May 2021
Aditya University, Surampalem , India
